Summary

I compose test documentation; attentive to errors and defects in the web application or desktop application; working with databases in MySQL Workbench 8.0 CE, created queries with Postman, monitored queries with Fiddler, and made tests in Selenium.

I have little experience in testing, but I have strong soft skills: very attentive to details; I learn quickly; I perceive information nicely and use it in the necessary direction; polite and friendly; I am not the first to go to a conflict; I accept fair criticism in my favor for the development of my skills.

Technical skills:

Testing Documentation:
- Check-list
- Test case
- Test suite
- Bug report

RDBMS/Database server:

- MS SQL Server
- My SQL

Operating system:

- Windows XP/7/8/10

Testing Documentation:

- Check-list
- Test case
- Test suite
- Bug report

Tools and Technologies:

- Jira
- Git BASH/GitHub/SourceTree
- Selenium IDE
- Rest API
- Postman
- My SQL
- Fiddler
- XML
- JSON
- HTML/CSS
- XPath
- DevTools
- Test-design techniques

Experience:

Restaurant worker

Education :

Culinary College in Dnipro (2007-2010)

Language :

English - Pre-Intermediate

Ukrainian - Free
